

Elevance Payer Policy: Botulinum Toxin (Botox) for Chronic Migraine

CPT/HCPCS Code: 64615 | Version: 2026-Q3 | Effective Date: 2026-07-01

Specialty Requirement

This service requires a referral from: Neurology referral.

Required Supporting Documentation

1. Neurology Clinical Notes
2. Patient Headache Diary

Clinical Prerequisites

1. Diagnosis of chronic migraine defined as headaches on at least 15 days per month, of which at least 8 days have migraine features, for more than 3 months
2. Trial and failure, or intolerance, to at least 2 different classes of oral migraine preventive medications (e.g., beta-blockers, anticonvulsants, tricyclic antidepressants) for at least 8 weeks each

Notes

Requests lacking any of the required supporting documentation above will be returned to the provider for additional evidence unless the case includes clearly documented exigent circumstances warranting expedited review.
