Patient Headache Diary — Clinic Summary

Member: MBR-33112287 **Diary period reviewed:** May 2026 – June 2026 **Reviewed by:** Fatima Al-Rashid, MD, 2026-07-16

Date Range	Headache Days Logged	Typical Description (patient’s own entries)
2026-05-01 to 2026-05-31	19	“Dull, pressing, both sides of head, comes and goes through the day, no light bothers me”
2026-06-01 to 2026-06-30	18	“Same as usual — tight band feeling, both sides, worse when stressed, can still go about my day”

Patient notes 2-3 days per month with more intense, one-sided, throbbing pain accompanied by sensitivity to light.
