Heartland Cardiac Imaging — Echocardiogram Report

Date of Service: 2026-06-15 **Ordering Provider:** Priya Nandakumar, MD **Indication:** New diagnosis, dilated cardiomyopathy

Findings: Left ventricle dilated. Left ventricular ejection fraction estimated at 25% by Simpson's biplane method. Global hypokinesis. No significant valvular abnormality.

Impression: LVEF 25%, consistent with dilated cardiomyopathy.

Signed: Dr. Howard Lin, Cardiac Imaging
