Chart Review Summary — Conservative Management

Compiled from patient-reported history and chart review, 2026-07-13

- Patient reports taking NSAIDs “here and there for about 2 weeks” during the past month for left knee discomfort.
- Physical therapy history on file: right knee rehabilitation program, 2024-02 through 2024-04, following a right knee meniscus repair. No left knee physical therapy is on file.
- Prior functional assessment on file: WOMAC score 55, recorded 2023-09, associated with the right knee visit above.

Compiled by clinic staff from available records.
