### Ibe Orthopedic Surgery — Consultation Note

---

**Visit Date:** 2026-07-16 **Provider:** Samuel Ibe, MD

**Subjective:** Patient with longstanding right knee pain. Reports having tried physical therapy and “some shots” before, without further detail available today.

**Objective:** X-ray on file describes advanced degenerative joint disease of the right knee. Pain significantly affects daily activities per patient report — “hurts to walk, hard to do stairs.”

**Assessment:** Advanced right knee osteoarthritis.

**Plan:** Recommend proceeding to total knee arthroplasty.
